CONVENTION BUREAU KARLSRUHE & REGION

Working with professionals

Everyone on the team of the Convention Bureau Karlsruhe & Region knows the wider area of Karlsruhe between the Black Forest, the Vosges and the Palatinate Mountains like the back of their hand. Our hearts belong to Karlsruhe and the surrounding area, in all its aspects. We have a skills network which has grown steadily over the years, giving us a large number of reliable selected partners, so that we can always recommend the right venue for every occasion. This may be an exquisite incentive event, a training session, a meeting or a product presentation, or it may be a convention. Whatever your needs, you can always rely on our experience and in-depth local knowledge.

Being a non-profit service centre, run by the City and Region of Karlsruhe, we can provide free help and advice, ensuring that you will always find the right partners for yourself and your event – ranging from the venue, through the logistics, facilities and catering, to the artists and an exciting support programme.

There's nothing that the wider region of Karlsruhe cannot offer, whether it's for a small manageable incentive team, whether you need an entire floor for a meeting or whether it's for a large number of visitors at a convention. The Convention Bureau

Karlsruhe seeks to support local event organisers, hotels and venues and to make them available to you in a well structured and consolidated form. Our partners include small family businesses and also big agencies and societies, so that there's always a perfect venue for every possible event, taste and occasion.

To give you an idea of the diversity of our region, we'd like to present to you Karlsruhe and its wider region and also each of our partners. The North West of Baden-Württemberg is a place to fall in love with, and we're sure you'll like it as much as we do.

Pia Kumpmann, the heart and brain of the Convention Bureau, would be pleased to give you a surprise with her keen intuition for the right business partners and with her impressive knowledge of the region and its facilities. No event is too small for her, and no wish is too unusual.

Karlsruhe

The heart – or perhaps the head – of the city is Karlsruhe Palace. It was completed in 1718, has shone forth in its current Baroque splendour since the late 18th century and is now the centre of the city's 32 radial roads which characterise the fan-shaped layout of Karlsruhe. Today the Palace houses the Regional Museum of Baden.

Other firm fixtures of Karlsruhe's cityscape are the German Federal Supreme Court, which has been based in Karlsruhe since its foundation in 1950, and the German Federal Constitutional Court, created a year later.

This second biggest city in Baden-Württemberg is multifaceted, cosmopolitan and rich in cultural and educational institutions. Nine colleges and universities and a large number of research organisations help to make Karlsruhe one of Europe's most important locations for information and communication technology. Karlsruhe's most significant asset is its role as a research venue. Nowhere else in Germany do science, technology and culture interact so harmoniously and successfully. The innovative spirit of the city seems to be endless, and the Karlsruhe Institute of Technology, the Fraunhofer Institute and countless other renowned research establish-

ments bear testimony to the city's cosmopolitanism and academic soul.

Institutions such as the Centre for Art and Media (ZKM) have succeeded in forming interfaces between art and science. The industrial premises of the former ammu-

nitions factory are a listed building and provide a home for changing special exhibitions as well as three research institutions and several production offices.

If an event is too big for any of the venues in Karlsruhe itself, ample space can be found at Neue Messe Karlsruhe, available since 2003, with its four column-free halls. Situated only about 7 km (4 miles) south-west of the centre, on the grounds of the former airport in Rheinstetten, Karlsruhe has a state-of-the-art, fully customisable exhibition centre which was created in an impressive architectural design, reflecting the

city's axial symmetry. The column-free arched design of the hall roofs creates plenty of well-lit space that allows any kind of major event.

Situated in the heart of Südweststadt, next to the Zoological City Gardens, the Karlsruhe Congress Centre has four different halls, arranged around a large central square, suitable for a wide range of events. Each of these buildings can be used separately and has its own strengths, though they also form a highly impressive venue in combination.

Region

Based in Karlsruhe, our team has a wide network that reaches in all directions. Working with our many different partner venues, we can find you premises for absolutely any type of event. The

region around Karlsruhe has a rich cultural landscape, superb restaurants, a mild climate and a marked sense of quality and service. Moreover, it is highly diverse and has something for every taste, ranging from a vibrant, lively city to a quiet, picturesque country estate.

Kraichgau in the north is almost unparalleled with its many mediaeval villages which have grown together in the course of time and which have retained their charming market squares, castles and beautiful half-timbered houses. The area has quite a few castle hotels with impressively designed function rooms. Between Landau and Bruchsal you can choose between elegant, contemporary hotels and small private guest houses that take professional care with their customers and offer specially tailored solutions. The Palatinate Mountains are well known as a wine-growing area and are ideal for enjoyable and informative winetasting events while also allowing team-building and incentive events in the vineyards.

In the east of the area Pforzheim can offer a wide spectrum of venues and also cultural events. The golden town provides numerous special options for events and has some superb venues, such as the Gasometer. Furthermore, its event industry is full of creativity.

South of Karlsruhe, Baden-Baden and the northern foothills of the Black Forest are particularly attractive, e.g. Bad Herrenalb and Bad Wildbad. The Black Forest is a charmingly beautiful area and extremely attractive to visitors. Our partner venues in this area offer a perfect balance of contemporary meeting and convention premises,

on the one hand, and relaxing leisure facilities and imaginative incentive events, on the other.

Baden-Baden has a successful mixture of tranquillity and excitement. The Casino is ideal for an unforgettable evening, and the city's traditional castle hotels and state-of-the-art conference hotels leave nothing to be desired, from highly modern facilities to great trips down memory lane.

In the west of the area it's only a few kilometres to the French border and the region of Alsace with its famous white wine and tarte flambée. Here, too, we always find perfect partners for an event, whether it's a day trip or an incentive event. The walking paths along the Rhine – and thus the border between Germany and France – are popular destinations for a day out and for team-building events. Karlsruhe's Rhine Harbour is more than a logistical transshipment point. It also serves as a mooring point for passenger ships and adds a good deal of industrial romanticism to the city with its Baroque layout.

Partners: Over 100 strong partners from Karlsruhe and the region

We love our area, and so we have spent many years compiling a portfolio of outstanding venues,

hotels and service providers in the MICE industry. In doing so we've met people who – just like ourselves – have turned their passion into their jobs. And it's this tangible delight in their work that prompted us to include them in this brochure, as all of them run venues, hotels and amazing events where this passionate dedication is clearly in evidence.

In the event and hotel industry, in particular, we can see none of that German prejudice of an inadequate service mentality. In fact, the opposite is

true: Germany is considered to be the most popular country for meetings in Europe.

Thanks to our highly versatile partners – over 100 in all – you will always find the right place for your event in Karlsruhe and the surrounding region, whether you need a state-of-the-art working environment, an unusual or spectacular venue or some spacious contemporary halls for a large-scale event, or indeed a romantic country estate or palace for a pleasant mixture of work and relaxation.

THE AKADEMIEBÜHNE: A HARMONIOUS ENSEMBLE OF NOSTALGIA AND MODERNISM – UNIQUE IN THE REGION

It's an unusual venue: when the Akademie Bühne was built in 1954, it was originally intended as a cinema and theatre for the French armed forces, but was later extended and rededicated as a church. Since 2008 it has been the hub of EurAka Baden-Baden.

A wide variety of events can be held at the Akademie Bühne. Extensive reconstruction ensured that the building retained its church atmosphere, in particular – with ancient pews, a nostalgic foyer and colourful stained glass windows, making the Akademie Bühne a real gem and therefore a very special venue. Its functionality and outstanding technical facilities allow organisers to hold events of the highest quality. Whether it's a corporate function, a product presentation or a meeting, you'll always find ideal conditions for almost any type of event.

1,100 sqm AT A GLANCE

The hall is 380 sqm in size, with two ascending steps. It has a stage and a backstage area as well as a laser system with a water screen and comprehensive sound and lighting facilities, allowing plenty of flexibility at an event.

There is also a sound studio with a recording and control room, so that events can be recorded.

Moreover, the venue has a catering kitchen and two multipurpose rooms (each 65 sqm), which can be used as artists' dressing rooms or as seminar or storage rooms. In addition, there is a patio, widening out the options even further.

CULINARY FACILITIES

At the Akademie Bühne you can use our in-house catering service. And to offer you further culinary delights, we work in partnership with two regional catering firms.

The three areas of the Cantina Majolika in Karlsruhe – the restaurant, bistro and bar – work in harmony to create a perfect atmosphere. The former plaster works of the Majolika ceramics company was renovated, extended and stylishly furnished with great attention to detail in 2004. While the restaurant pampers its guests with mouth-watering regional and international cuisine, the bar and bistro offer a choice of recommended pasta dishes of the week and other classics, such as our selections of antipasti or fresh salads. The centrepiece is, without doubt, the sumptuous and superbly equipped bar. When the weather is fine, enjoy the Mediterranean flair on our terrace with outdoor bar surrounded by palm trees and beneath the shade of the one of its sun awnings.

The attractive rooms of the Cantina Majolika regularly host functions and also offer a suitable setting for your company events. You can either book the entire venue or just one area. Our event service provides full support.

DEUTSCHES WEINTOR – THE GERMAN WINE GATE

The German Wine Gate Gateway to the Palatinate – for 80 years

This 18 metre tall building has been the starting point and trademark of the German Wine Route since 1936. Situated directly on the border with Alsace, the impressive ensemble of buildings is surrounded by vineyards with views stretching from the Black Forest to the Vosges. A bold marketing idea, a successful role model and a tourist magnet since its inception.

The German Wine Gate for professionals Event location for 2 to 2000 guests offering both hearty and fine cuisine

Today, the parent company of the synonymous wine estate cooperative is run by accomplished, modern restaurateurs. The motto of the wine: "It's alive!" And if you like to experience it live, you've come to the right place: Attractive programme of events: HYPERLINK „<http://www.weintor.live>“ www.weintor.live and, of course, customer parties. In fact, guests often combine the two: the customer special meets the "pre-packaged" show ... This is where they take place: from glamorous events in "black tie" to barbecue parties in lumberjack shirts. And here you will find a versatile and flexible location: the presentation in the exclusive rotunda or the fire show directly beneath the Wine Gate – or both? We implement your ideas. Targeted, cost-effective, reliable.

Ensuring your day is a success for us both.

A dream location with lovingly furnished chalets on the outskirts of Stuttgart. Unique and perfect for exclusive events and conferences. The "Dörfle Scheune" (village barn) offers a private meeting room with conference technology and individually arranged coffee breaks for groups of up to 30 people.

Our business guests particularly love the spacious layout of the two-storey houses with living areas of between 70 and 150m² – depending on the accommodation category.

All the chalets have sitting areas that are ideal for communicative group work and allow participants to work on flat screens. Alternatively, the "Dörfle Weinkeller" (wine cellar), "Gasthaus zur Sonne" (inn) and – for nature lovers – various outdoor terraces and the "Dörfle Wiesn" (village meadow) are available as work spaces.

"Gasthaus zur Sonne" nestles at the heart of Dörfle and is available for private parties and events. With seating for approx. 60 persons, it offers a surprising range of possibilities, e.g. festively decorated tables on the sunny courtyard terrace. The inn serves Swabian-German cuisine and is complemented by a traditional country bakery with a real wood-fired oven. This supplies aromatic bread, home-made tarte flambée, suckling pig and other roasts from Grandma's recipe book – for a truly memorable culinary experience.

Naturally, a variety of accompanying activities are available on-site or nearby through local partners and first-class event agencies.

We look forward to hearing from you.

Its 1,500 m² of floor space are spread over 3 levels to create a unique function room. Enclosed by a 37 m wide and 17 m high roof, the unique dome structure is an impressive space which combines striking, modern architecture with an industrial character. This fusion of the principal elements of concrete, glass and stainless steel gives the building its special charm. A truss circle and visible air ducts set the tone. Permanently installed lighting, sound and event technology, which is adapted to the rotunda, ensures the dome always looks and sounds its best from both inside and outside the venue.

The main event hall is perfectly complemented by the adjoining seminar rooms which are available for workshops, seminars and conferences.

Programme:

We offer a selection of current cinema releases, original language versions of films, classic films, daily children's films and highlights from the film industry.

In the summer months, we exchange the red carpet for the green lawns of Schloss Gottesau, which host popular outdoor film screenings.

And our „70mm Festival“ is sure to set the hearts of cinema enthusiasts racing.

The history of the SCHAUBURG as a cinema began with what, at first glance, appeared to be an unremarkable advertisement placed by the Apollo Varietés theatre in the Karlsruher Zeitung newspaper on 1 September 1906. The concluding item on the evening's programme is described as follows:

„strong America, bio-tableau, living photography“. Karlsruhe's oldest cinema lives on in its traditional home, which has recently been modernised with the very latest technology. In 2006, all three screens were equipped with modern digital projectors, new sound systems and refurbished seating. Experience a traditional film theatre with the most up-to-date projection and sound technology in the south of Karlsruhe.

We offer a selection of current cinema releases, original language versions of films, classic films, daily children's films and highlights from the film industry. In the summer months, we exchange the red carpet for the green lawns of Schloss Gottesau, which host popular outdoor film screenings. And our „70mm Festival“ is sure to set the hearts of cinema enthusiasts racing.

Our screens are also available for corporate events. Presentations can be projected via a laptop directly onto the cinema screen and discussed in the room via a microphone.

Our large reception hall offers space for a get-together while our kitchen provides all the culinary creature comforts you require.

GASOMETER PFORZHEIM

A remarkably versatile venue

The Gasometer Pforzheim is a fascinating industrial monument – a historic floating bell gas holder that is over 100 years old, 40 m high and 40 m in diameter. It is one of the last buildings of its kind in Germany. Once threatened with demolition, it has now been rescued, lovingly restored, upgraded with high quality modern architecture and re-equipped for the future. The result is the new tourist attraction in the “golden city” of Pforzheim – the Gasometer Pforzheim, a unique exhibition and event location.

The 360° panorama of the coral reef in front of Australia presents the unique underwater world of the reef in all its fragile beauty and complexity. The colourfulness and richness of detail of Yadegar Asisi's giant circular image will also show you the uniqueness of creation beneath the sea surface.

You can look forward to diving into this submarine world in the Gasometer Pforzheim. You will discover the fascinating refraction of sunlight under water in a colour rush from all shades of blue, azure and green and experience the yellow, red and pink shades of corals and marine animals.

The Gasometer offers a number of different rooms that provide ideal venues for top class events.

From fine dining to our exclusive bar with show and band... there are virtually no limits to the possibilities for unforgettable events at Gasometer Pforzheim.

KESSELHAUS

The Kesselhaus buildings in Karlsruhe are protected as historic monuments and form part of the industrial complex of a former textile factory.

The boiler house ("Kesselhaus"), which dates back to 1910, was painstakingly renovated with an eye for detail, adding several modern highlights, yet with architectural sensitivity. The general impact superbly captures the spirit of the time. Moreover, the Lavender Terrace can be used for a variety of further purposes during the summer months. The brickwork creates a delightful, highly popular atmosphere – for lunch and dinner at the restaurant and also for special events, whether it's private or business occasions.

Another architectural gem in the Kesselhaus complex, dating back to the early 20th century, is the Färberei ("dye house") – a spacious building with a seven-metre barrel vault to delight its visitors. The discreet modern elements have been designed to preserve the original charm of the 1914 industrial building. It's a place that has the right atmosphere for a great event that will stay in people's memories.

On the culinary side, you can treat your guests to fine modern bistro food (served at tables, as a buffet, as finger food or at a kitchen party) or even some award-winning star cuisine delights (1 Michelin star, 16 Gault & Millau points). Star chef Sven Hemmann and his team can guarantee the right food for every occasion as well as some wonderful memories for your senses.

AS UNIQUE AS YOU ARE. Professionally flexible, enormously powerful and always exceptional. Like the clients who celebrate success with us and experience something special. That is the Karlsruhe Convention Centre. Four world-class locations with enough space for 13,000 seated guests and an exhibition area covering 20,000 m²—one of the biggest venues of its kind in Germany. And possibly the most fascinating, thanks to its unique blend of auditoriums, halls and meeting rooms. And the exceptional architecture. And the truly special atmosphere. The Concert House, in classical style and steeped in history, contrasts with the modern-day multifunctional Stadthalle (City Hall), while the legendary Schwarzwaldhalle (Black Forest Hall) and the Gartenhalle (Garden Hall) are bright, open and flooded with light. What is more, the Convention Centre enjoys an incomparable location. Right in the heart of the city. The main station is just a few minutes away on foot. As are the main shopping malls. And the impressive Karlsruhe Palace with its superb parkland. Fancy a spot of relaxation between events? KARLSRUHE TRADE FAIR CENTRE

See and be seen. Some trade fair grounds are so big that it's easy to get lost. Then there are others that offer very little space for showcasing big ideas. And then there's the Karlsruhe Trade Fair Centre. There you get both: an easily negotiated, clearly structured area that simplifies any visit – and spacious exhibition areas where you can put on a major show. Start with the remarkable Events Hall with its open architecture defined by glass and steel. Lots of space, lots of natural light, lots of wood: the four exhibition halls also hold surprises. Because they are different from other halls. More elegant, more inviting, more of an experience. Each hall is at ground level, column-free, has floors that can support weights of 3,000 kg/m² and can be blacked out individually. Good for your nerves: state-of-the-art technology ensures your function will go off smoothly. Good for your stomach: our trade fair catering service includes the Eastside self-service restaurant at the east entrance, the CAFETIERO Café, two bistros between the halls and a really special place for a tasty meal: the glass-walled Bellefoire Restaurant in the upper storey of the foyer – with sophisticated cuisine and a superb view over all the colourful trade fair happenings. For conventions, too, the Karlsruhe Trade Fair Centre offers the perfect setting: the Trade Fair Conference Centre accommodates more than 2,000 guests and is situated in the upper storey directly above the entrance areas. Meetings, conferences, workshops, seminars: every type of business event is possible, with the choice of a large auditorium, the convention area in the east wing and twelve additional conference rooms. All can be divided and combined to requirement, all have state-of-the-art conference equipment, all offer direct access to the trade fair restaurant. Need still more space? Then use our Events Hall too, with room for up to 1,200 guests. And for major events the dm-arena offers space for up to 10,000 persons – for company conventions, party and trade union conferences and more.

The Palazzo Halle at Karlsruhe West station is still an insider tip, even for dyed-in-the-wool inhabitants of Karlsruhe. Whether a company event, wedding or birthday celebration, the pre-industrial Palazzo Halle exudes a truly special charm. Bathed in soft light and with gleaming table decorations, the industrial monument, steeped in history, is transformed into an atmospheric location for events that will move you and remain in your memory for all time.

As one of Karlsruhe's few remaining industrial complexes dating back to the early industrial period, it was almost forgotten until about nine years ago when the Eventagentur Projekt Eins GmbH breathed new life into the Hall. Francesca Esposito, the agency's managing director, recognised the Hall's dormant potential, lovingly renovated it and gave it a name. Today's Palazzo Halle, which over a hundred years ago throbbed with the production of machinery, now pulses with life.

SCHLOSS EBERSTEIN IN GERNSBACH

Extraordinary conferences in an historic atmosphere

Enthroned high above the roofs of Gernsbach, with a picturesque view over the romantic Murgtal valley, is the castle of Schloss Eberstein. Once the property of the Margraves of Baden, Schloss Eberstein is now an established favourite among lovers of wine, good food and relaxation, as well as business travellers, both in the region and beyond.

Just a few minutes' drive from the motorway exit Rastatt (A5 Karlsruhe- Basel), this historic castle offers the perfect setting for your successful conference, seminar or company event.

Accommodation is in comfortable 4-star superior rooms, some with steam shower or whirlpool bath. In the Schloss-Schänke restaurant and on the Platanenterrasse (plane tree terrace), we treat you to local specialities from the Baden region. The castle's own vineyard produces outstanding wines, which are just waiting for you to taste them.

Our service and support are as individual as you are. We will be delighted to enhance your seminar, e.g. with a fascinating cookery course under the guidance of Michelin starred head chef Bernd Werner, barbecue, expert guided tour of the vineyard or wine tasting.

THE CASTLE – ETTLINGEN

Ettligen Castle was first mentioned as a fortified castle in the 13th century and transformed into a baroque castle in 1727 by Marchioness Sibylla Augusta as her dower. Thus was created a baroque work of art, whose magnificent and luxurious rooms today provide a stylish backdrop for events of all kinds. The modern, multifunctional Schlossgartenhalle complements the baroque splendour of the castle and its inner rooms.

Built on to the castle as a "sala terrena" (with covered access) and big enough to accommodate 700 guests, it is the ideal venue, even for large events. The Schlossgartenhalle can also be combined with the rooms in the castle to offer a wide range of layouts for your function. Do you need a computer-controlled lighting system? Do you want access to the latest sound system? With our broad palette of conference equipment and true to our motto "better conferences, better celebrations" we can satisfy your wishes. A small service area for preparing and arranging your food menu rounds off the Schlossgartenhalle's barrier-free facilities.

For events on a larger scale you need look no further than the modern City Hall, the light and airy Bürgerkeller or the Waldsaumhalle in the Oberweier district, or alternatively the fully renovated Bürgerhalle in the Ettligenweier district.

The Par Terre Winery is a listed building and part of Landau's vibrant history. Originally used as barracks, the building has been converted and modernised, ingeniously combining both ancient and contemporary features. In fact, these are the contrasts it lives on – with the respectful use of its existing fabric, on the one hand, and its specially designed interior, straightforward shapes and timeless elegance, on the other. The generously proportioned windows add a loft-like atmosphere to the available space, affording a great view of the surrounding countryside.

The Winery is suitable for 60 to 100 person. It is a beautifully stylish place for corporate occasions and private festivities alike. 240 sq.m. of space are available to create a good ambience, with guests seated at round tables or in a concert-style arrangement. Whether indoors or outdoors, you can be assured of a relaxed atmosphere for your party or conference. Feel free to request a quotation (no commitment on your part).

Talk to us when you are planning a private function or company event; we will liaise with you to create a personalised programme tailored to your needs. In addition, we also host civil weddings at the castle. The unique environment of our castle provides many options which we would be happy to present to you.

Treat yourself to something special

The castle is situated on a hill surrounded by its own vines and overlooking the slopes of the northern Black Forest. The collection of buildings nestles in a semicircle around the ruins of the tower, built as long ago as the 12th century.

The castle has 21 rooms, furnished in a simple yet elegant country home style. Conferences and celebrations take place in the Bergfriedsaal, a room which reflects the ambience of medieval times in striking contrast to its modern lighting and conference equipment. The Senator-Dr. Manfred-Fischer-Stube and Kupferstube are offered for the accommodation of smaller meetings.

In addition to offering an exquisite view over the Rhine Valley extending as far as Strasbourg, our Panorama restaurant serves Mediterranean cuisine with fresh products sourced from local farmers.

The Burgstube is the ideal wine bar for private celebrations. At our medieval banquets, the knights of Windeck organise the accompanying programme of events.

In summer you can enjoy views from our castle terrace extending far beyond Strasbourg as you sample the delicious baked goods made in our own castle patisserie.

RELAXED COMFORT, CHARM AND A MODERN LIFESTYLE – tradition in full sail

Hotel-Restaurant Steuermann has been a familiar name for 40 years. When daughter Birgit and her husband Jeremy Cole took over, they put new wind into the hotel's sails, and it has been moving ahead at a good speed for many years now. Yet although quite a few changes are in evidence, the basic foundation is still in place. As before, there is a great emphasis on fresh products and high quality. Many of our products come directly from the manufacturer, so that we can keep an eye on our carbon footprint.

When you come to us, you can expect regional food of the season, with a touch of internationalism, served in a harmonious, elegantly furnished setting. While being keen to offer high-quality food and superb wines, we also want you to receive excellent value for money. During the summer months the Beer Garden offers additional comfortable seating where you can enjoy our food and drinks in a relaxed environment.

Our German name means "helmsman", and you'll be right on course with us for some great culinary delights, whether it's a business lunch, a family reunion, a birthday party, corporate catering or just a nice meal for two.

Our small but excellent three-star business hotel has 30 single and double rooms in a variety of categories. It offers a harmonious ambience, high-quality furnishings with plenty of accessories and state-of-the-art communication facilities. We are the only city hotel that is directly situated by the Rhine Harbour, close to the Exhibition Centre, and our discerning guests have enjoyed outstanding service and a pleasantly warm atmosphere for many decades.

After a strenuous day in business or an intensive visit to a tradeshow you can recharge your batteries – both literally and figuratively – and then look forward to a successful new day. All our rooms are non-smoking and air-conditioned.

The hotel also has free parking for your vehicle. Free parking is available, and the Ankerstrasse tram stop (number 6) is within a short walking distance.

HOTEL VILLA HAMMERSCHMIEDE

Dating back to the time of the industrial revolution and built in 1893, the villa combines the charm of the 19th century with modern comfort. The hotel is situated in a wonderful park extending to 25,000 m² and stocked with mature trees. Due to its moderate size of just 25 elegantly furnished rooms and 5 luxurious suites, the personal attention of the family and committed staff is assured. Guests can relax for hours in the rock spa with pool, whirlpool, sauna and steam bath. It affords glorious views over the park and a gorge that is illuminated at night. Even late arrivals are magnificently catered for – the wellness area is open 24 hours a day. Since its opening in 1992 the gourmet restaurant has been one of the best in Germany. Sebastian Prüßmann's cuisine has been awarded a Michelin star and 15 points by Gault Millau. The same kitchen produces the primarily regional dishes that are served in the cosy "Guten Stuben". The cuisine of the "Guten Stuben", too, enjoys a Bib Gourmand in the Michelin Guide, awarded to restaurants that offer exceptional value for money. The lounges at this period villa, graced with Italian marquetry furniture, offer an unforgettable setting for smaller meetings and undisturbed dining. The Kaminzimmer (fireplace room) and library can also be exclusively booked for a chat in front of the fire or a cosy evening smoking a cigar.

Hotel Watthalden offers an enticing blend of history and modern facilities. The villa is a listed building dating from 1816. The impressive front building is home to the gourmet restaurant „Hartmaier’s” while Watt’s Brasserie, with an attractive beer garden, is located in the rear building. The modern Hotel Watthalden lies to the side completing a harmonious triumvirate to suit all tastes and occasions.

Hotel Watthalden lies at the heart of an old park just five minutes walk from the historic centre of the town of Ettlingen. Its 83 air conditioned rooms – from single rooms to junior suites – offer facilities that cater to every need.

Sportingly inclined guests can exercise in the Sky fitness room and then relax on the roof terrace with lounge. The historic rooms on the first floor of Villa Watthalden also provide a suitable venue for conferences and meetings.

Watt’s combines a brasserie, bar, cocktail bar and cafe. On fine summer days, the barbecue is lit outside in the beer garden while Sundays are „brunch days” until the afternoon.

Schwarzwaldstrand House, on the outskirts of Bad Herrenalb, reflects the owner's love of wood and water and his instincts of a trained boat builder. Built from solid wood in accordance with high ecological standards, it stands on a roughly triangular plot bounded on the long side by the River Alb. The 50 metre long riverbank was carefully re-modelled and integrated into the garden design. The building itself comprises three L-shaped apartments connected by a central, multi-functional area which serves as the communicative heart of the complex and offers plenty of space for meetings.

Large, south-facing windows ensure all three apartments are flooded with natural light and have beautiful views of the surrounding countryside. Each apartment has its own access to the garden and the riverside beach. The shared lobby has a long table and is the building's communication hub – ideal for seminars and celebrations. All three apartments have 2 bedrooms, one with a double bed, the other with 2 single beds. There is also a sofa bed for 2 people in the living room. Cosy and communicative but with space to retreat for peace and quiet – Schwarzwaldstrand House is the ideal venue for seminars or family celebrations and offers accommodation for up to 18 people!

In the winter, a wood-burning stove in every apartment crackles and provides extra warmth and security (in addition to the pleasant underfloor heating). Guests can cook in the comfortable, Italian-style kitchen with gas hob. And, for a final romantic touch, the garden fireplace on the riverside beach is the perfect spot to gather and relax at the end of the day.

Bad Herrenalb has a spa with a hot springs in the Kurpark and the town's outdoor pool, surrounded by greenery, is only 100 metres away.

A few tours we can suggest:

Palace Tour

From one palace to another. A great trip for anyone who loves culture and history. It's a 2-hour excursion into the history of Rastatt with its smoking guns and atmospheric palaces.

Vineyard Tour

A lovely tour of the vineyards, ideal for connoisseurs. This 4-hour excursion takes you through the vineyards below Yburg near Baden-Baden.

Rhine and Village Tour

A tour of the picturesque reed-thatched villages as far as the Rhine. This 2-hour excursion for nature lovers takes you through the floodplains of the river Rhine down to the ferry point.

Fragrant strawberries and delightful asparagus (only during the strawberry and asparagus season)

2-hour excursion through the Hardt region with a visit to its strawberry and asparagus fields, incl. 1 kg of strawberries and asparagus per person.

Take a tour in the AAGLANDER Motor Carriage, reconstructed in a Victorian style, and experience the picturesque villages, palaces and countryside around Baden-Baden in this very special way. Whether there's two of you or a small group, family, friends or business partners, a trip in the AAGLANDER Motor Carriage is an unforgettable and delightful experience for anyone at any age. I'd love to show you the most beautiful nooks and crannies of my home area and tell you a few stories about this region and its people, both at court and in the vineyards. Just choose your favourite tour. Enjoy a classic country tour to the palaces, vineyards or the Rhine and its villages, or ask me to organise a wedding or a company outing. If you like, I'll be happy to put together your own individual tour with an idyllic picnic or winetasting session. If you can show me your valid driving licence (for cars), I'll even let you have a go and drive the carriage yourself as a special treat.

Group and corporate deals

Impress your business partners, customers or staff members with a trip on your open day, a company party or a special highlight at a tradeshow.

Safe driving service

You come in your own car but – after an enjoyable evening – do not want to risk your driver's licence. We will drive you and your car home.

Driver Service / Executive Driver

You are the boss, a member of the board or simply need a driver. Whenever you or your children need to be driven to an appointment, it will be our pleasure to drive you. And we will be happy to provide references.

More services:

- Classic driver service with vehicle provided
- Europe-wide car transfers (leasing returns, rental and new car pick-up)
- Discrete driver if you are disqualified from driving

ichfahr.net is a pioneering start-up based in Karlsruhe – offering clients a slightly different and very individual driver experience. In the Karlsruhe area, the service is already considered the insider tip for alternative transport.

So, what makes ichfahr.net unique? Unlike a taxi company, ichfahr.net drives both its customers and their cars safely to their destination. In fact, the start-up has already established itself as a hidden champion in Karlsruhe's nightlife and exclusive customer segment over recent years.

As a customer, you enjoy the benefits of going home in your own vehicle. But without risking your driver's licence and with the freedom to enjoy the evening as you wish. The company's key partners are Karlsruhe's caterers who are keen for their guests to get home safely.

How does it work?

Simply request a driver via www.ichfahr.net, WhatsApp or telephone. After a quick confirmation, two drivers will arrive at the agreed address. One driver will take you and your vehicle to your destination and be collected there by the other driver.

Bespoke meeting and media technology solutions from the professionals

Session pro GmbH puts the personal relationship with the customer at the heart of its corporate philosophy.

Based in Östringen, our team brings fresh ideas to events around the world. Their dynamism and experience – provided respectively by the younger employees and “old hands” in our company – complement each other perfectly.

Session pro provides professional services in the field of event technology and trade fair construction. We create and realise concept designs for events and trade fair presentations and work as a consultant for stage design, lighting, sound, image and video technology. We bring corporate, sporting and cultural events, live performances and TV shows to life using innovative technologies. Above all, our sophisticated logistics, hand-picked, motivated staff and many years of experience help to ensure the success of your event.

Our customers can also rely on individual advice and tailor-made solutions for fixed installations. Modern forms of communication present an extremely diverse range of challenges. By offering you the best advice and integrated system solutions for video, sound, light, conference and media technology, we enable you to make informed decisions based on all the facts and available options. From PA systems in schools, churches, clubs, town halls and sports grounds, to lighting systems for cabaret, theatre and show stages, to media technology for hotels, conference centres, halls and meeting rooms – the technology should always be flexible and blend harmoniously with the venue.

Our agency is based in the Baden region and has been providing sustainable, networked, cross-media solutions for customers in Karlsruhe, Germany and beyond since 2004.

The many imaginative names we have developed to describe our services confirm to us that advertising agency is still the best description of the business which motivates and excites us.

Our crew of 5 includes consultants, creative thinkers and web designers. They provide the full spectrum of communication tools and realise customised and effective marketing and advertising concepts.

We call ourselves a crew because we are all on the same voyage of discovery in delivering professional advertising services. And we see our customers as members of this crew as well.

Less hierarchy – more output

We work in a creative, informal atmosphere where all our employees are free to express themselves and develop their own skills. This is a fertile environment where new ideas flourish.

We also have a network of freelance designers, layout specialists, illustrators, programmers and copywriters who enable us to respond and implement all your wishes flexibly and professionally at any time.

Our services range from developing corporate logos to selecting colours, fonts and images and even CMS-based website design. You can be confident that your new product or company website will be modern and clearly focused.
